PROFESSIONAL SUMMARY

Interior Designer and Technical Designer with experience across residential interiors, modular furniture detailing, 2D layouts, 3D visualization, production drawings, client coordination, and site execution. Experienced in preparing Cabinet Vision production drawings for international projects, developing interior elevations, and supporting site teams through measurements and execution coordination. Combines a design-focused approach with technical drafting and a Civil Engineering background to help translate concepts into practical, well-documented interior solutions.

SELECTED EXPERIENCE & PROJECT SCOPE

30+	25+	10+	International
Interior projects	Elevations developed	Construction sites supported	Cabinet Vision production drawings

Project experience includes interior design, elevation development, modular furniture detailing, international production documentation, and construction-site support.

PROFESSIONAL EXPERIENCE

Junior Designer & Executive | Focal Point & Opulant ARC — **Dec 2025 – Jul 2026**

- Prepared 2D layouts and 3D interior design concepts for residential spaces, balancing functional requirements with the intended look and feel.
- Coordinated with clients, vendors, and site engineers to support design communication and project progress.
- Conducted site measurements and supported supervision of interior execution, helping align site conditions with design requirements.
- Assisted with material selection and quantity estimation to support planning and execution.

Technical Designer | Furnigence LLP — **Feb 2025 – Oct 2025**

- Prepared production drawings for modular furniture, supporting the transition from design intent to fabrication documentation.
- Developed furniture designs for wardrobes, TV units, modular kitchens, and storage solutions.
- Verified dimensions and material specifications and checked drawings against project requirements.
- Prepared Cabinet Vision production drawings for international projects, with attention to technical clarity and production needs.

CORE COMPETENCIES

Residential Interior Design • Modular Furniture Design • Interior Elevations • 2D Layouts & Drafting • 3D Visualization • Cabinet Vision Production Drawings • Site Measurements & Execution • Material Selection • Quantity Estimation • Client & Vendor Coordination

TECHNICAL SKILLS | EDUCATION | PROFESSIONAL DEVELOPMENT

Interior Design • Technical Documentation • Furniture Production • Site Coordination

TECHNICAL SKILLS

Advanced	AutoCAD, SketchUp, Cabinet Vision	**Primary use**	2D drafting, 3D modeling, modular furniture and production drawings
Intermediate	V-Ray, Enscape	**Primary use**	Interior visualization and presentation
Basic	Lumion, MS Project	**Primary use**	Visualization support and project planning fundamentals

DESIGN & TECHNICAL WORKFLOW

01 | Understand requirements
Review the project brief, intended use, site conditions, dimensions, and storage or furniture needs.

02 | Develop design documentation
Prepare 2D layouts, elevations, 3D concepts, and furniture drawings to communicate the design intent.

03 | Detail for production
Use Cabinet Vision and technical drafting skills to prepare production-focused documentation for modular furniture and international project requirements.

04 | Coordinate execution
Support site measurements, material selection, quantity estimation, and communication with clients, vendors, and site engineers.

EDUCATION

B.E. in Civil Engineering

Er. Perumal Manimekalai College of Engineering, PMC TECH, Anna University | 2025 CGPA: 7.96

CERTIFICATIONS

- AutoCAD
- Employability Skill Development
- UI Automation

WORKSHOPS, SEMINARS & ACADEMIC ACTIVITIES

- Disaster Mitigation Strategies Seminar.
- Green Building Concepts.
- Ready Mix Concrete Site Visit.
- Paper presentations on Precast Concrete and Green Building.

PROFESSIONAL STRENGTHS

Problem Solving • Time Management • Leadership • Client Communication • Project Coordination • Attention to Dimensions • Cross-functional Collaboration
